Additional Charges – Description

The Additional Charges set out in the table on the previous page will be added as applicable to the Service Rates charged by Star Track Express Pty Ltd (“StarTrack”) for the provision of Services by StarTrack.

The application of the Additional Charges must be read in conjunction with the StarTrack Terms and Conditions and other documents comprised in your Services Agreement. The Additional Charges are further described below. Other capitalised terms used in this document have the meaning set out in the Star Track Terms and Conditions.

1. Service Rates and Additional Charges

- a) The Service Rates will be invoiced and paid in the manner set out in the Business Credit Account Terms and Conditions.
- b) All applicable Additional Charges will be added to the Service Rates invoiced to you and are payable in the same manner.
- c) The Service Rates and Additional Charges may be reviewed and adjusted by StarTrack in the manner set out in the StarTrack Terms and Conditions, and (other than when Force Majeure Fee applies) you will be given at least 30 days’ notice of the amount of the adjustment and the date on which the adjustment will take effect.

2. Fuel Surcharge

A variable fuel surcharge will be levied on delivery charges. This surcharge is varied on a monthly basis and set out on our website: <https://startrack.com.au/pricing-updates> and in your invoices.

3. Security Management Charge

The Security Management Charge will be applied to all Premium, Next Flight and International services.

4. Manual Handling Surcharge

- a) The Manual Handling Surcharge will apply to any Goods that we assess as requiring manual handling. Goods to which the surcharge applies will include, but is not limited to:

 - length of 117cm
 - width of 60cm

- Flat packs (with any dimension less than 5cm), Goods containing liquids or glass, cylindrical tubes, and items likely to roll off conveyor belts.

- b) Freight consigned to us on pallets or skids (and for delivery on pallets or skids) will not attract the Manual Handling Surcharge. Where pallets or skids contain incompatible items and we are required to deliver those items individually, the surcharge will apply to each incompatible item on the pallet or skid.
- c) Weights and dimensions will be based on those declared by you unless we measure and assess otherwise.
- d) The Manual Handling Surcharge doesn’t apply to items where the Oversize Charge is applied.

5. Oversize Charge

- a) The Oversize Charge will apply to any Goods that exceed the specified weight or dimension set out in the table on the previous page. It applies to all Services excluding Courier Services.
- b) Applicable Oversize Charges aren’t cumulative for an individual item. Where two or more charges may apply, only the greater amount will be charged.
- c) Weights and dimensions will be based on those declared by you unless we measure and assess otherwise.
- d) The Oversize Charge will be applied to items instead of the Manual Handling Surcharge for items falling within the oversize ranges listed.

6. Unmanifested Fee

The Unmanifested Fee will be automatically applied per Item if, at the time of pick-up, a digital Manifest giving details of the Goods we have collected has not been received.

7. Manual Consignment Notes

The Manual Consignment Note (CN) charge will be applied per consignment to all Goods which are consigned with a manual CN or with no CN.

9. Peak Fee

The Peak Fee is an additional percentage fee applied to Service Rates for Goods lodged during the period between 1 November and 31 January (inclusive) each year and such other periods of high demand across some or all of our or Australia Post’s network as may be specified from time to time (“Peak Times”). The Futile Pick-up charge will be applied when a driver has attempted the pick-up of a consignment or consignments but is unable to perform the pick-up due to a change in the original pick-up requirement.

12. Futile Deliveries

If the first delivery attempt is futile and the consignment is returned to a StarTrack depot, the Futile Delivery charge will be charged at your quoted local delivery rate. If no local delivery rate has been found for the specific depot, the largest local delivery rate will be used of any other depot. A basic plus per kg charge will apply if no local rates have been quoted. The Futile Delivery charge is set out in the table on the previous page. A cubic factor of 250 kilograms per cubic metre will also apply.

14. Futile Pick-ups or Futile Deliveries (NXF Only)

- a) the Futile Pick-up charge (NXF Only) will be applied when a driver has attempted the pick-up of a consignment(s) but is unable to perform the pick-up due to a change in the original pick-up requirement and as a result another pick-up attempt is required.
- b) The Futile Delivery charge (NXF Only) will be applied where the first delivery attempt is futile due to a change in the original delivery requirement, and as a result the consignment is returned to a StarTrack depot and another delivery attempt is required.
- c) The Futile Pick-up charge (NXF Only) and Futile Delivery charge (NXF Only) are variable charges that vary depending on individual factors including but not limited to, waiting time, location, freight profile, number of pick-up or delivery attempts, and whether the pick-up or delivery was attempted during business hours or after hours.

15. Overweight Fixed Price Premium (FPP) and Fixed Price Airlock (FPA) Consignments (not including Satchels)

Consignments will be charged at your quoted weight break, based on the applicable rate for the chargeable weight (i.e. the greater of the Cubic Weight and the Dead Weight). Where a chargeable weight exceeds the maximum weight break quoted, it will be charged at your maximum weight break, plus an additional charge per kg thereafter as specified in the table on the previous page.

16. Over-filled, Oversized, Overweight and Misdeclared Satchels Consigned on Fixed Price Premium or Fixed Price Airlock

- a) An FPP/FPA satchel must meet all of the satchel size/weight break requirements specified below to be eligible for the quoted rate. These requirements apply whether you use our supplied satchels or your own.

| Satchel size/ weight break | Satchel size/Weight break Requirements | | |
|-------------------------------|--|----------------------|------------------------------|
| | Maximum Dead Weight | Maximum Volume | Greatest linear dimension |
| S (small) / 1kg | 1kg | 0.009 m ³ | 360 mm |
| M (medium) / 3kg | 3kg | 0.016 m ³ | 445 mm |
| L (large) / 5kg | 5kg | 0.039 m ³ | 605 mm |

- b) Where you have declared a consignment as an FPP/FPA satchel and we determine that:
 - (i) your consignment does not meet all of the satchel size/weight break requirements for the satchel size/weight break that you have selected, we will charge your consignment at the quoted rate for the next satchel size/weight break, if any, for which your consignment meets the satchel size/weight break requirements.

(ii) your consignment has a dead weight, volume, or greatest linear dimension that exceeds the maximum specified above for the "Large" satchel size/weight break, we will charge you using the methodology for FPP/FPA Cartons (as per section 15 above). Satchels are measured at the points of their greatest width, height, and length for the purposes of determining Cubic Weight.

(iii) your consignment is actually packed in a carton, we will charge you the rate applicable to the relevant FPP/FPA carton size/weight break (and apply any overweight charges).
